—Holmes
Flag of the free hearts, hope and home,
Thy angel hands to valor given,
Thy stars have light the welkin dome,
And all thy hues were born in heaven
Forever float that standard sheet,
Where breathe the foe that flash before us.
With freedom's soil beneath our feet,
And freedom's banner streaming o'er us.

Clement, and was known as a lovable, christian woman. She had many friends and relatives in this and Livingston counties, and all deeply mourn her death.

The Legislative Race.

EDITOR PRESS.—Mr. Fugate's letter from Livingston about the race for Representative caused me to investigate the vote of Crittenden and I must confess the matter assumes a different phase from what I had put upon it. Like a great many other folks, I had concluded that "Uncle Jeff" was defeated because he was not known and was not popular, but the vote in each county will not bear one in reaching this conclusion, and now I am of the opinion that it was the landslide of that year that hit us and the plain, honest old Democrat of Livingston was not responsible for that landslide. In this county that year Bradley received 1323 votes and Hardin 887; while Blackburn received 1257, running 66 behind Bradley, and Nickell got 805 votes, running 82 votes behind Hardin. Hence, "Uncle Jeff" liked only 16 votes of keepings near up with Hardin as did Blackburn with Bradley. Now when we remember that on the day before the election a circular was sent into this county from Livingston, signed by men, some of them claiming to be Democrats, stating that the Democrats of Livingston were going to vote for Dr. Clark because they regarded him as the strongest free silver man and the one most likely to win, it is not strange that a few Democrats were persuaded to vote for Clark instead of Nickell, especially as this is the home of Dr. Clark, and he is personally popular and naturally had friends among the Democrats, who knowing him to be all right on the silver question, voted for him.

Now there are few more popular men in this section than Judge J. Fletcher Dempsey, who was on the ticket in 1895 for Railroad Commissioner, yet in that election he received 779 votes while Mr. Nickell received 805, showing that Nickell was not responsible for the defeat of that year.

I write this simply in justice to Mr. Nickell and to show that he ran practically as well as the rest of the ticket in this county that year.

DEWEY COMING.

The Admiral Bids Farewell to the Scenes of his Victory

Mid Music and the Booming of Cannon He Begins His Long Journey.

Manila, May 20.—The cruiser Olympia, with Admiral Dewey on board, left here on her homeward journey to the United States at 4 o'clock this afternoon. As she steamed away the Oregon, Baltimore and Concord fired an Admiral's salute. At the first shot the hand on the flag ship's afterdeck played a lively air, and her white cloud sails crowded the decks and gave a tremendous cheer. Then followed the noisiest half hour known in this harbor since the battle which linked its name with that of Dewey. The din of guns and of brass bands echoed through the smoke, a fleet of steam launches shrieked their whistles, the musicians of the Baltimore played "Home, Sweet Home," her flags signalled "Good-bye," and those of the Oregon said "Pleasant voyage."

The last music heard from Admiral Dewey's ship was "Auld Lang Syne," while the guns from the forts at Cavite and from the Monterey, on guard off Paraque, too far to be audible, puffed white clouds of smoke. Since May 1, 1898, when he steamed past Corregidor Island in search of the Spanish fleet, the Admiral, at that time a Commodore—has not once left his post of duty in Manila Bay. He is on his way to Hong Kong in the Olympia. Capt. Barker, of the battleship Oregon, has assumed command of the squadron until the arrival of Rear Admiral Watson. The Olympia will remain at Hong Kong two weeks, and it is estimated that the homeward trip will take about seventy days. He will go directly to his home at Montpelier, Vt.

ONE YEAR ONE DOLLAR
FOR REPRESENTATIVE.

We are authorized to announce
T. J. NICKEL
a candidate to represent Crittenden
and Livingston counties in the next
General Assembly of Kentucky. His
election is subject to the action of
the Democratic party. Election Nov-
ember 1899.

Our gold mines ought to bring a
fortune.

Agustino seems to be at the tail
end of his meteoric career.

If it were a choice between Dick
Knott and Goebelism, we prefer
the latter.

The prices of wheat and corn, the
main farm items in this section, are
still waiting for the boom in prices.

Gen. O is will not pay the Cubans

usually the man with the gun makes the

The Kentucky Court of Appeals
has decided that railroads must fur-
nish separate coaches for colored and
white passengers or be fined.

The Kentucky thoroughbreds have
better look to their laurels. Agusti-
no's record as a runner can not be
laughed out of court.

If Senator Peffer, the much whis-
pered Populist of Kansas, really
returns to the Republican party, that
party will "have had" sure enough.

Morgan county Republicans—the
first to hold a convention—have in-
structed for Taylor for governor.
They endorsed Bradley and Deboe.

Doublets the denizens of the State
prisons are glad when Gov. Bradley
takes a day off. Lieut. Governor
Worthington swing the prison doors
ajar daily.

The Democrats of Graves county
have nominated Eugene Weatherford
for reelection to the legislature.
They will have a sterling man in the
next House.

The State Commercial Convention
convenes in Louisville the 29th and
will remain in session two days. We
would like to see Crittenden repre-
sented in that gathering.

The Republican candidates for
Governor are to make a still hunt
for the nomination. No speaking!
Why deprive us of the pyrotechnics
when Dewey's coming home.

Mormon Elders have commenced a
campaign in Louisville. The papers
of that city have outlined up in the
fight yet, but doubtless they will
divide up pro and con.

State Auditor Sam H. Stone has
formally announced his candidacy
for the Republican nomination for
governor. He is a Bluegrass man
and I is said to have a strong following.

Jack Chinn and Charlie Bronston
have buried the freecord hatchet and
become friends. The peace confer-
ence at the Hague should be notified
of this good omen, prognosticating
the universal reign of the white angel
of peace.

Millionaire Russell Sage has given
\$50,000 to a charitable institution,
and as it is the first time the old gen-
tleman has ever loosened his purse-
strings his brother millionaires and
the public in general are wrestling
with an overplus of astonishment.

In Caldwell county Saturday J. W.
Hollingsworth was nominated for the
legislature by the Democrats, defeat-
ing his opponent almost two to one.
In the primary election the lines be-
tween Stone and Hardin were clearly
drawn, and as indicated Hollingsworth
who was a Stone man won easily.

A new city composed entirely of
negroes is shortly to be established on
Long Island. The negroes will be
taken from Georgia and North Caro-
lina. A Brooklyn negro lawyer con-
sidered the scheme and he hopes by it
to assist in elevating in his race. The
espial of white men has been prom-
ised to assist in building factories.

The Boston women held a meeting
last week to protest against the "bar-
barism of lynching." The step is com-
mendable, but it seems to us that it
would be just as well to let them and
the meeting an appropriate occasion
for protesting against the crime from
which lynchings generally originate
in the South.

For the past ten days the Louisville
Dispatch has shown a little disposition
to generously permit more than one
man to contend for the Democratic
nomination for Governor. There is
still some room for broadening out in
that paper along this line, and if the
Dispatch maintains its positions as
the party organ in the State, it will
have to rise above Louisville and
look beyond the horizon.

Tutt's Liver Pills
In his message to the legislature
a few days ago, Gov. Roosevelt, of
New York, said:

"There is evident injustice in the
light taxation of corporations. I
have not the slightest sympathy with
the outcry against corporations as
such, or against prosperous men of
business."

"But while I freely admit all this,
it yet remains true that a corporation
which derives its power from the
State should pay to the State a just
percentage of its earnings as retri-
bution for the privileges it enjoys."

The position of the New Yorker is
simply that of every anti corporation
man in the country as far as he goes.
Exercising the privileges granted to
them by the State, corporations pile
up fortunes. These privileges or
franchise are to the men associated
for their use what the farm is to the
farmer—the main dependence for the
carrying on of the business—yet the
corporation, as a rule, seeks every
subterfuge that can be devised by the
most ingenious men of the age to
avoid a taxation proportionate to its
income.

The other objectionable feature of
a corporation or combined capital is
its effort to destroy competition, by
purchasing all other concerns or
houses in the business it designs to
enter, or by crushing the weaker
firms, usually represented by individ-
uals or firms of limited capital, by
the temporary reduction of prices, or
by the use of means that limited
capital can not procure. Thus they
seek to control the field and are usu-
ally successful, and the public be-
comes a prey to the advance of men,
working through a franchise granted
them by the self-same public.

The men who oppose these mechani-
cations are the anti-corporationists of
the country. There is no "outcry
against corporations as such, or
against prosperous men of business,"
as such, but it is the despotic
methods they sometimes use to acquire
unnatural gains that occasion a just
and healthful outcry.

Government Offered.
The commissioners appointed by
the President have reached the Philip-
pines and have offered the Filipinos
the following form of government:

A governor general, to be ap-
pointed by the president; a cabinet, to
be appointed by the governor general;
all the judges to be appointed by the
president; the heads of departments
and judges to be either Americans or
Filipinos, or both; and also a general
advisory council, its members to be
chosen by the people by a form of
suffrage to be hereafter carefully de-
termined.

ment Commander.

**"Spring Unlocks
The Flowers"**
To Paint the Laughing Soil.

And not even Nature would
allow the flowers to grow
and blossom to perfection
without good soil. Now
Nature and people are much
alike; the former must have
sunshine, latter must have
pure blood in order to have
perfect health.

Hood's Sarsaparilla cures blood trou-
bles of all sorts. It is to the human
system what sunshine is to Nature—
the destroyer of disease germs. It
never disappoints.

Poor Blood.—The doctor said there
were not even drops of good blood in my
body. Hood's Sarsaparilla built me up and
made me strong and well. SENE E. BROWN,
16 Astor Hill, Lynn, Mass.

Dyspepsia, etc.—A complication of
troubles, dyspepsia, chronic catarrh and
inflammation of the stomach, rheumatism,
etc., made me miserable. Had no appetite
until I took Hood's Sarsaparilla, which
acted like magic. I am thoroughly cured.
N. B. SENE, 1574 W. 14th Av., Denver, Col.

Rheumatism.—My husband was
obliged to give up work on account of rheu-
matism. No remedy helped until he used
Hood's Sarsaparilla, which permanently
cured him. It cured my daughter of cat-
arrh. I give it to the children with good
results. Mrs. J. S. McNamee, Stamford, Ct.

BILLYVILLE POINTERS.
[Special to the Press.]
Zed Patterson's numerous admirers
are raising a fund to build Zed a
hen roost. They had a conference
at the auditorium and the seven pa-
trichs decided that if Zed had a
roost of his own, the hens of his
neighbors could occasionally get a
full night's rest, and \$1.75 was raised
on the spot, each neighbor con-
tributing a copper. If the enter-
prise proves a success there will be
money in it—to the neighbors.

The Democrats down here are all
for free silver—the freer it is the
better they'll like it. The Republi-
cans all want the gold standard, but
as there is but one piece of gold in
the neighborhood, there is liable to
be a scrap about who shall keep the
standard. A committee has been
appointed to see J. W. Guss and
procure a ton or two of his ore for
neighborhood circulation.

Our road overseer has warned the
hauds out to wear the road next Sat-
urday, and as we have only three
miles it is designed to fall in line
promptly at 3:30 p. m., so as to have
ample time to get over it by 6 p. m.

John Stacker's team has been en-
gaged and if we can get a scraper, the
hands that are slow on foot will be
permitted to ride.

Alex. Dollinger has decided not
to pitch any crop this season, be-
cause the rains washed the soil off
his three acre plantation down to the
rock pillars and he's got nowhere to
pitch her. He will dig sang and
mayapple this spring, speculate
on peach seed in the summer and
catch musk-rats and possums in the
fall, and if he is as good at stretch-
ing hides as he is the truth, the fur
dealers will find something to their
taste a little later on.

Our leading farmers are down in
the mouth—of the branch fishing.
Our folks have a fine ball team.
They practice every Sunday from 11
to 12 a. m., when there is preaching
at Hawthorne branch.

A cyclone struck our section a few
days ago, but when it undertook to
cross the public road, its cerebro-
spinal meningitis got tangled in a
tree and the whole thing collapsed.

We are not much in politics at
Billyville. Those of us who were
born Democrats mark under the
rooster and those of us who come
from Tennessee mark under the log
cabin.

If this don't go into the waste-
basket, we will write again; if our
neighbors locate us, hence don't look
for us anymore, unless we step in.

The work of putting limestone on the streets has commenced. The city council should see that the work is properly done. A thin layer of half broken rock will do no good. There is a right way and even if it cost a little more, the proper thing should be done. A hundred yards of street properly macadamized will be better than a mile improperly done.

Judge Breck Hill, of Clark county, was in town yesterday. He is a candidate for Secretary of State, and is making a canvass of the State. He was clerk of the last House of Representatives, and if he proves to be as popular a candidate as he was an officer, his opponents will find him a mighty hard man to down. He is a worthy, capable man; plain as "Old Hickory" and a sound Democrat.

The Meeting
Dr. Sales, of Henderson, is preaching twice a day at the Baptist church—afternoon and night. He is having large congregations, and the people are greatly pleased with his preaching. His simplicity and force in presenting the great gospel truths attracts the attention of every one of his hearers. The meeting will be continued indefinitely and promises to do much good.
Primary Election.
The chairman of the Crittenden and Livingston County Democratic Committees have called a primary election for July 22, to nominate a candidate for the Legislature. The name of each voter is to be recorded by the clerk, and the voter is to indicate his choice by marking in the square opposite the name of the candidate on a ballot like the usual election ballot.
A Good Collector
Sheriff Pickens has perhaps been more successful in the collection of taxes in this county than any other sheriff for many years. In the eastern half of the county those who owe him tax, can be counted on the fingers of both hands. This does not include a number who pay nothing but poll taxes. In Dycusburg and Hurricane precincts he has not completed his work altogether, but he expects to get through those precincts by the first of June, at which time he will make out and report his delinquent list. He does not expect the delinquent list to exceed 500, which will be 300 less than the list of 1897. He has made many levies, but so far not one sale, as the parties all paid before the property was advertised.
Negro in Trouble.
Kuttawa, May 23.—Miloum Bradley, a negro, attempted to kiss a white woman here last night. He was arrested and given immediate trial before many of the citizens heard of the occurrence. The police judge held him in \$1,000 bail and sent him to the Eddyville jail for safe keeping. There is considerable excitement over the affair, and there are murmurings that bode no good for Bradley.
Summer School for Teachers
My summer school for teachers and others desiring a thorough review of the common school branches will begin May 29, 1899, and continue six weeks.

Our Boys at Home
Messrs. L. L. Bebout, Second Lieutenant of Company K, and Rochester Wallingford, and Dick Ford of Company A, Third Kentucky Volunteers, reached their homes in this county last week, their regiments having been mustered out. The boys were all warmly greeted by their countrymen, and everybody at home is proud of them and the distinguished service they rendered their country in its time of need. Lieut. Bebout will probably engage in business in Paducah, where he is well known and popular. The other boys will drop back into their old places in this county for the present, and the Press sincerely hopes that they will meet with a large measure of success in life. Their honorable career as soldiers will not be forgotten by their countrymen. John McCord and Crossland Miles enlisted at the same time. Miles did good services in Porto Rico and was discharged some time ago; McCord transferred to the hospital corps of the regular army some time ago, and is still in the service.
Took a Header
Sunday as a number of young men were passing New Salem church on their wheels, one of the number, Crossland Miles, was so absorbed in admiring a boy of young ladies standing in the church yard, that he was totally oblivious of the material existence of a creek and bridge just in front of him, and he was not aroused from a reverie of admiration until his wheel took a plunge from the bridge to the waters ten feet below. For a few moments the objects of his attention were lost to sight, though, perhaps, "to memory dear," and when he emerged from the stream, his "clinging ceremonies" had the undivided attention of a vast crowd, he suddenly remembered pressing business down the road.
Dr. Graves Improving
One of the balls has been removed from the leg of Dr. W. T. Graves, who was shot some time ago. The ball was found partially imbedded in the bone and was split at the end. Dr. Graves is improving as well as could be expected. Out of the three shots which struck him only two of the balls remained in his body. It is expected that the other can be removed as soon as his condition will permit an operation.—Paducah News

IN THE LEAD.
Reasons for Insuring in the Mutual Life of Kentucky. Because:
The Old Mutual Life Insurance Company of Kentucky stands as a rock wall of protection to her policy holders.
She has more policy holders in Crittenden county than any other regular company doing business in the county.
She has paid more money to policy holders in the county than all the other companies combined.
She was the first company that ever issued an absolutely incontestable contract.
Her cash values are higher than those of any other company charging same rate of premium.
She pays all claims immediately upon receiving proofs of loss.
She is organized under the strongest laws of Kentucky and all her assets are invested in Kentucky.
She has given entire satisfaction to policy holders under all circumstances.
The company issues policies upon all the approved plans, and parties desiring insurance will find it to their interest to write or call upon W. L. Adams, agent, Marion, Ky., who will take great pleasure in explaining the policies fully to them.

The Nichols-Shepard TRACTION ENGINE

Nothing that helps to make a perfect road and thresher engine has been left out or slighted in the construction of the Nichols-Shepard Traction Engine. Everything has been done that science, skill and experience could suggest to add to its effectiveness, power, durability and safety from explosion and fire. The boiler is of the very best selected steel, thoroughly well made and provided with every approved safety appliance. The fire-box is surrounded by water—top, bottom and sides. The draft-damper is so made that sparks and ashes can't drop out, and the smoke-stack is fitted with patent bonnet and spark-arrester. Every part is strong, durable and is thoroughly tested.

Detailed descriptions and many illustrations of the Nichols-Shepard Traction Engine and of the Nichols-Shepard Separator and other threshing machinery are contained in large catalog—mailed free.

BIMETALLIC LEAGUE.

Louisville, Ky., May 31st, June 1st and 2nd, 1899.

The third annual convention of the League of Bimetallists of the Ohio Valley will be called to order at Louisville, Kentucky, on May 31, 1899, and will continue in session until the night of June 2, 1899. There will be two or three sessions daily.

The following have positively and unreservedly accepted invitations to address said convention:
Hon. W. J. Bryan, of Nebraska.
Hon. George Fred Williams, of Massachusetts.

Hon. John P. Altgeld, of Illinois.
Gov. Chas. S. Thomas of Colorado.
Senator J. C. S. Blackburn, of Kentucky.

Hon. P. Wat Hardin, Kentucky.
Hon. W. J. Stone, Kentucky.
Hon. Wm. Goshel, Kentucky.
Hon. John J. Lantz, Ohio.
Hon. E. B. Finley, Ohio.

Hon. Henry Warrum, Indiana.
Hon. F. J. Van Vorst, Indiana.
The reports of Governor Altgeld's illness are a mistake, as he has himself written in repeating his purpose to attend the convention.

It is confidently believed that Hon. W. J. Stone, of Missouri, and Hon. Joseph W. Bailey, of Texas, will also be present and address the convention. They have been invited and are endeavoring to so arrange their affairs as to accept.

There will be two banquets in connection with the convention. One will be given on the night of June 2nd at Fountain Park, in honor of W. J. Bryan, and one at the Galt House, on the night of May 31st, to James P. Tarvin.

The attendance of ladies is expected and desired. A committee of twenty-five ladies of Louisville has been appointed to receive and entertain visiting ladies.

The people of Louisville, without regard to party, are interesting themselves in the convention, and doing all in their power to give to those attending a good time and warm reception.

James H. Tarvin, of Covington, is President of the League, and Allen W. Clark, of Greenburg, Ind., is Secretary. The object of the League is the advocacy of independent bimetallicism at 16 to 1 by this country, and opposition to all the results growing out of the demonetization of silver.

Any 16 to 1 organization in the States of Ohio, Indiana, Illinois or Kentucky can send delegates to the convention. See official call herewith for full particulars.

BINDER CONTEST.

The Milwaukee and McCormick Binders Given a Test at Hopkinsville.

A genuine Milwaukee Right Hand Binder was set up on the street Thursday afternoon and operated by Messrs. J. H. Kroh, B. F. Emerson, S. B. Hicks, S. S. Hollingsworth and T. J. Tardy, representing the McCormick General Agency at Evansville, Ind.

The exhibition was intended to settle the disputed point as to whether or not the Milwaukee people make a right hand binder.

The McCormick Company is the originator of the right hand binder and it has been claimed that the Milwaukee company did not make a right hand machine. In order to prove McCormick's claim that the Milwaukee people have recognized the superior advantages of the right hand binder, their rivals in business brought one of the right hand Milwaukee binders to the city and set it up. Many of the most prominent farmers of the county were present and agreed that the Milwaukee right hand binder was in many ways a close imitation of the McCormick binder.

Everything went off pleasantly, the rivalry between the agencies being of an entirely friendly character.—Hopkinsville Kentuckian.

The business section of Dawson City, Alaska, has once more been destroyed by fire. The loss is estimated at four million dollars, and may be much larger.

Story of a Slave

To be bound hand and foot for years by the chains of disease is the worst form of slavery. George D. Williams, of Manchester, Mich., tells how such a slave was made free. He says: "My wife has been so helpless for five years that she could not turn over in bed alone. After using two bottles of Electric Bitters, she is wonderfully improved and able to do her own work. This supreme remedy for female diseases quickly cures nervousness, sleeplessness, melancholy, headache, backache, fainting and dizzy spells. This miracle working medicine is a godsend to weak, sickly, run-down people. Every bottle guaranteed. Only 50 cents. Sold by J. H. Orme, Druggist.

I venture to hope that my remembrance of the Paines and friends, will gain this a space for publication. With best wishes to the readers of the Paines, I am most truly yours.
